

Day 7 Checklist:

Improving predator logic:

Modification vs. elaboration

You must have the following tasks accomplished before the end of class today.

Accomplished	Task
<input type="checkbox"/>	<p>Make sure you have completed all of the tasks from yesterday's (Day 6) checklist</p> <p>Do you need to schedule time outside of class in case progress is an issue? Discuss with your team.</p>
<input type="checkbox"/>	<p>Division of labor and assignment of tasks.</p> <ul style="list-style-type: none"> • Who works on what? • Again, who should take on what responsibilities unless that/those person(s) are out for the day? • What needs to happen if a team member is stuck or becomes frustrated? <p><i>Collaboration is encouraged if the team feels it necessary to be successful.</i></p>
<input type="checkbox"/>	<ul style="list-style-type: none"> • How should your team approach the predatory functions? <ul style="list-style-type: none"> ○ Work out who works what of this part of the code amongst yourselves. ○ Keep in mind the questions posed in the previous checklist item ○ What parts of the code need to be modified, and what other parts may

need more functions to work more
efficiently.
